Dear Parents/Guardians/Community members,

A case of COVID-19 has been diagnosed in two individuals at Churchill Community High School in La Ronge. We are working closely with Public Health staff to ensure necessary measures are in place to protect all staff and students.

Public Health will be contacting parents/guardians of students and any staff/visitors/volunteers who may have been in close contact with the case and providing direction. This means if you are not contacted by Public Health, your child can continue to attend school.

To protect the privacy of individuals, we are not able to share or discuss further details. If you would like to learn more about how close contacts are determined, visit the SHA website.

We remind everyone entering schools to monitor for any signs or symptoms of COVID-19.

Deep cleaning of the affected areas will be complete as soon as possible. The safety protocols our school has put in place are critical to reducing the risk of transmission. Mask requirements, proper hand hygiene, physical distancing when possible, and cohorting classes are all measures our school has implemented to help protect students and staff members. These measures will significantly reduce the possible spread of the virus.

The safety of our students and staff members is our number one priority. We value open communication with our school community, especially during this time. If you have any questions, please contact the school.

We will continue to provide additional information to parents/guardians as it is available.

Thank you,

Scott Tomporowski
Principal, Churchill Community High School
